2021-10-30	STOCK BISOU BISOU	Good explanation of both situations, with or without variable. With the variable the condition needs to satisfy an equality between the variable after the case statement and the one you base your condition on, without variable you can add a self-sufficient condition to test.	60.00
2021-10-31	STOCK BISOU BISOU	transport special journee de dimanche	30,000.00

2021-10-27	STOCK BISOU BISOU	transport	65,500.00
2021-10-30	STOCK BISOU BISOU	Agreed, I almost always end up using the extended case statement because the conditions I want to test on are always more complex than just the one variable itself. It also just feels easier to me to read.	47.00
